REMARKS

Applicant has amended this application in response to the final rejection. Claim 6, which the Examiner has indicated as being allowable, has been inserted into claim 1. Thus, claim 6 is allowable.

Claim 7 is represented. Claim 7 requires that there is a large increase in the area between the enlarged area and the original area, and that the increase is greater than at least 200%. Further, claim 7 has now been amended to make clear that the area is both non-cylindrical, and symmetric about a central plane of the area. The prior art patent to Kurihara, et al. cannot meet the limitation of being symmetric about a central plane. Instead, the only enlarged area in this patent would be the one side of a central plane.

For the reasons set forth above, all claims are allowable.

Applicant believes that no additional fees are necessary, however, the Commissioner is authorized to charge Deposit Account No. **03-0835** in the name of Carrier Corporation for any additional fees or credit the account for any overpayment.

Respectfully submitted,

Theodore W. Olds, Reg. No. 33,080
